

Справките са изготвени в периода 26-29 юни 2019 г. от доц. д-р Елица Лозанова-Белчева в изпълнение на проект „Проектиране и разработване на прототип на информационна система „Указател за цитируемост на публикации от български автори (обществени науки)“ (договор № ДН 15 /1 от 11.12.2017 г.), финансиран от Фонд научни изследвания (МОН).

Обобщеният анализ от направени справки в пълния списък на списанията, индексирани в Web of Science – [Master Journal List](#) (юни 2019 г.), в платформата Web of Science, Web of Science Core Collection ([Web of Science](#), юни 2019 г.) и в [Списъка на съвременни български научни издания, реферирани и индексирани в световноизвестни бази данни с научна информация](#) на НАЦИД (април 2019 г.; без списъка на неактивните списания, т. е. такива, които вече не се индексират) показва, че към края на м. юни 2019 г. в **ядрената колекция** със списания на платформата Web of Science (Web of Science Core Collection) се индексират общо **43 български списания** (вж. табл. 1 и табл. 2). Само **14 от тях** имат Импакт фактор (вж. табл. 3 и екранно изображение 1).

Остава спорен въпросът кое списание всъщност следва да се категоризира като българско, това което:

- се издава в България,
- е на български език,
- има българско участие – автори, редакционна колегия и пр.

Издания, които са включени в списъка на НАЦИД и при направената справка се припознават като български (например списанията, издавани от издателство Pensoft), всъщност не са съвсем такива. Настоящото проучване потвърждава хипотезата, че списанията на издателство Pensoft (<https://pensoft.net/about>), които са 71% от „българските“ списания с импакт фактор (10 от общо 14-те списания – екранно изображение 1), не могат да бъдат определени изцяло като „български“. Показателно е обаче, че при някои от тези списания има по-голям дял българско участие: 5 заглавия са със създател (founder) Любомир Пенев, който е също така и Managing Editor на 5 заглавия. Според проучването ни само едно от списанията е отразено в електронния каталог на Националната библиотека „Св. Св. Кирил и Методий“ и това е NATURE CONSERVATION-BULGARIA. Ето защо може да се приеме, че от 10 списания на издателство Pensoft българско е само 1, 4 са създадени от български колективи и 5 се редактират с българско участие:

- **BIODIVERSITY DATA JOURNAL** (<https://bdj.pensoft.net/>) – Founder, също и Subject Editor (Любомир Пенев), Editorial Director + 5-ма редактор – българи
- **COMPARATIVE CYTOGENETICS** (<https://compcytogen.pensoft.net/>) – 3-ма редактори + 1 от ред. колегията (Managing Editor – Любомир Пенев) – българи.
- **DEUTSCHE ENTOMOLOGISCHE ZEITSCHRIFT** (<https://dez.pensoft.net/>) се издава от 1857 под заглавие Berliner Entomologische Zeitschrift, Deutsche Entomologische Zeitschrift (DEZ) и се определя като едно от най-старите международни списания по ентомология, 1 от ред. колегията (Managing Editor – Любомир Пенев).

- **JOURNAL OF HYMENOPTERA RESEARCH** (<https://jhr.pensoft.net/>) – издава се от името на International Society of Hymenopterists, 1 от ред. колегията (Managing Editor – Любомир Пенев).
- **MYCOKEYS** (<https://mycokeys.pensoft.net/>) – Founder (Любомир Пенев), Editorial Director + 1 редактор – българи.
- **NATURE CONSERVATION-BULGARIA** (<https://natureconservation.pensoft.net/>) – има го в електронния каталог на Националната библиотека „Св. св. Кирил и Методий“; Founder (Любомир Пенев), Editorial Director + 1 редактор са българи.
- **NEOBIOTA** (<https://neobiota.pensoft.net/>) – 1 от ред. колегията (Managing Editor – Любомир Пенев).
- **PHYTOKEYS** (<https://phytokeys.pensoft.net/>) – Founder (Любомир Пенев), Editorial Director + 3-ма редактори са българи.
- **ZOOKEYS** (<https://zookeys.pensoft.net/>) – Founder (Любомир Пенев), Editorial Director + 3-ма редактори са българи.
- **ZOOSYSTEMATICS AND EVOLUTION** (<https://zse.pensoft.net/>) - Mitteilungen aus dem Museum fur Naturkunde in Berlin, 1 от ред. колегията (Managing Editor – Любомир Пенев) + 1 редактор са българи.

Общо 43 български списания са индексирани в Web of Science Core Collection:

- = *Arts & Humanities Citation Index* – 1 българско списание (Хуманитарни науки и изкуство);
- = *Science Citation Index Expanded* – 16 български списания (Природни науки, математика, информатика – 15 бр.; Аграрни науки – 1 бр.; мултидисциплинарно – 1 бр.);
- = *Social Sciences Citation Index* - 0 български списания;
- = *Emerging Sources Citation Index* – 26 български списания (Хуманитарни науки и изкуство 9 бр.; Природни науки, математика, информатика – 9 бр.; Педагогически науки – 3 бр.; Технически науки – 1 бр.; Социални, стопански, правни науки (обществени науки) – 1 бр.; Здравеопазване – 3 бр.).

От отбелязаните в списъка на НАЦИД 60 бр. индексирани в Web of Science:

- 11 бр. са индексирани в други бази от данни извън Web of Science Core Collection, но включени в платформата Web of Science (*Biological Abstracts; BIOSIS PREVIEWS; BIOSIS Reviews Reports And Meetings; Zoological Record*);
- 7 бр. не са открити в Web of Science (възможно е още да са в процедура по оценяване (evaluation));
- 42 бр. съвпадат с направената справка (вж. табл. 1);
- 1 бр. е открито допълнително чрез списъка на НАЦИД – не се открива в пълния списък на списанията индексирани в Web of Science – Master Journal List (<http://mjl.clarivate.com/>).

Важно е да се отбележи, че само списанията, индексирани в **Science Citation Index Expanded** и **Social Sciences Citation Index** получават официално **Импакт фактор** (от *Journal Citation Reports*, <https://jcr.clarivate.com/>).

Справката за български списания с импакт фактор (при търсене по критерий country/region „Bulgaria“) за 2018 г. в *Journal Citation Reports* показва, че само **14 български списания** имат импакт фактор, като **10 от тях** са на издателство Pentsoft. На пръв поглед има разминаване между данните от списъка на българските списания, индексирани в *Science Citation Index Expanded* (табл.1), където фигурират **16 заглавия** и списъка на българските списания с импакт фактор за 2018 г., където са включени **14 заглавия** (табл. 3 и екранно изображение 1).

Причините за „загубата“ на 2 списания са следните:

- Списанието **NOTA LEPIDOPTEROLOGICA** не се отчита като българско, въпреки че е издадено от Pensoft Publishers, 12 Prof Georgi Zlatarski St, Sofia, 1700, Bulgaria (екранно изображение 2), защото към метаданните за издателство е добавено „**GERMANY**“ (екранно изображение 3). Допълнителна справка в уебсайта на издателство Pentsoft (<https://nl.pensoft.net/>) показва, че това списание е на Societas Europaea Lepidopterologica (SEL) и няма българско участие в ред. колегията.
- Списанието **HERPETOZOA**, което в табл. 1. фигурира като българско, защото е издадено от Pensoft Publishers, 12 Prof Georgi Zlatarski St, Sofia, 1700, Bulgaria (екранно изображение 4), също не се появява в списъка с българските списания с импакт фактор за 2018 г., тъй като е добавен друг издател: Österreichische Gesellschaft Herpetologie Ev, Burgring 7, P O Box 417, Vienna, A-1014, **AUSTRIA** (екранно изображение 5). Справката ни в уебсайта на издателство Pentsoft (<https://herpetozoa.pensoft.net/>) показва, че това списание е на Austrian Herpetological Society (ÖGH, Österreichische Gesellschaft für Herpetologie), но има 1 редактор българин (subject editor).

Таблица 1. Български списания, индексирани в базите от данни, включени в Web Of Science Core Collection: Arts & Humanities Citation Index; Science Citation Index Expanded; Social Sciences Citation Index; Emerging Sources Citation Index (юни 2019 г.)
